ABOUT ME

I'm Vishal Vyas. My Aim is to build upon and enhance my skills with a reputed client and dynamic organization, that explores, my potential and management knowledge as well as technical knowledge in a way that it can be put into effective use, and provide sustainable IT-solutions.

With a strong business acumen, a problem-solving brain, a penchant for juggling numerous projects, result-driven approach towards projects, and 9 years of undisturbed experience in Information Technology domain helps me to explore new horizons of Project Management every day.

I've worked with projects of higher budgets, have experience in managing teams that are a combination of in-house and freelance talent and I especially like when the Client is part of the process in a collaborative nature with scrum framework. I'm driven by curiosity; to question, to create, to understand how things work, and to learn more.

My Strengths are :

- Prioritization
- Change Management
- Strong coordination
- Conflict Management
