WAINGANKAR LOKESH SHRIKRISHNA

Personal Details:

E-mail: -	lokesh.waingankar@gmail.com
Date of Birth: -	9 th -November-1994
Gender: -	Male
Languages known: -	English, Marathi (Mother tongue), Hindi.
Nationality: -	Indian
Institute:	Sinhgad Institute of Management Pune.
Contact No: -	+91-7796556207

Career Objective:

To obtain a position where I can use my technical skills and strengths to get work satisfaction and will learn new things.

Educational Qualification:

PG and Graduation Course:

Class	Course	Percentage	University	College	Year
Post-Graduation	MCA	63.15	Pune	NBN Sinhgad college	2018
Graduation	BCA	60.75	Pune	Sinhgad college of science	2015

S.S.C	Vidyamandir High School, Kankavli	2010	79.27	Kolhapur board

Software Orientation:

Languages Known: - JAVASCRIPT, JQUERY, PYTHON, HTML-CSS, ASP.Net.

Operating Systems: - Windows, Linux.

Databases:- MySQL, Oracle

Professional Experience:

Working as a software developer at New Indictrans Technology for more than 3 years.

Framework: Frappe(ERPNext)

Technologies Used: Python, Javascript, HTML-CSS, Jinja-Templating

Databases: Mysql, Mariadb

OS: Ubuntu

Current Projects Undertaken:

Dairy:

“DESIGNING & DEVELOPING A FULL FUNCTIONAL ERP SYSTEM FOR

DAIRY(PROCUREMENT, SALES & DISTRIBUTION)”

Domain: ERP

Tools & Tech: Frappe, Python, JavaScript, MariaDB, ERPNext

Aspects: A web-based ERP system, pulling data through REST APIs from android and IoT devices.

Role and Responsibilities:

Worked as a software developer, Communicating with clients, Understanding Requirement, Planning Work Breakdown, Customizing ERPNext, Providing Solutions, Building Custom Applications, Deploying On Server, Testing.

Highlights: We use the 9th version of frappe in dairy project, where multiple document cancellation feature were not available. I have observed that cancelling each document one by one was a huge headache for testers and all the team members. I have taken an initiative and developed a feature of multiple document cancellation for a dairy project by making changes in frappe.

Accurate Powertech:

ERP System for Accurate Powertech.

Domain: ERP

Tools & Tech: Frappe, Python, JavaScript, MariaDB, ERPNext

Aspects: A web-based ERP system.

Role and Responsibilities:

Worked as a software developer.

Developed a generic dashboard, showing all data from related tables in a customized format, with custom charts and filters.
